Liberal Headquarters Names Conveners For November Convention In Calgary

The Alberta Liberal Association has appointed local constituency conveners for the forthcoming annual convention in Calgary, on Nov. 13 and 14. Conveners are charged with the issuance of credentials to authorized delegates. Liberal Leader J. Harper Prowse says 10 delegates may be accredited in each riding.

Conveners for the constituency of Lac la Biche is William Hamilton, Lac la Biche.

No Money For Milkman

LAC LA BICHE — It has been authoritatively reported that young children playing along the streets, are helping themselves to money left in milk bottles. This can be most annoying to the housewives, especially to those who work away from home or are away when the milkman makes his rounds, not to mention the harm caused to the child who "gets away with it".

Parents would be doing a service to the dairy and housewife as well if they kept an eye on any extra spending money found in the youngster's possession.

Wandering River Ladies' Aid Rectory

The ladies of Christ church, Wandering River, recently voted \$50.00 for improvements to the Anglican rectory in Lac la Biche. Christ church, Wandering River, is one of the mission points in St. Peter's mission which is served from Lac la Biche.

The mission was pioneered by the Anglican Sunday school vans, the first missionaries entering the area with the early settlers, almost 30 years ago.

The ladies are a small but enthusiastic group which has raised money for several good causes in recent years. The presentation was made to the rector, the Rev. R. S. H. Greene, by the secretary of the group, Mrs. Metro Watanuiuk.

The truth seems to elude the grasp of mankind despite the long and historic pursuit.

THRESHING NEARS END

Good weather again prevailed over Alberta during the past week, and threshing is completed in all but the northern corner of the province and the Peace River district.

In these areas only 10 per cent remains to be threshed, and it is expected this will be finished by the beginning of the week.

Electors Approve Loan, Additional Equipment Town's Water System

Proprietary electors of the town of Lac la Biche were given the opportunity to express their wishes in regard to a bylaw to authorize council to spend the sum of \$6,000.00 for additional equipment for the town's water distribution system.

Of the forty-seven voters who turned out to vote, forty-two voted in favor of the by-law, and four against. There was one spoiled ballot. As well over 10 per cent, of the qualified voters registered their votes, this means that after council gives the by-law its third reading, application can be made to the provincial treasurer for a loan to be used in purchasing the required equipment.

The loan will be made on the credit of the town at large and will not affect frontage taxes. It will be payable over a period of twenty years, with interest at a rate not to exceed 5 per cent, but expected to be around three and one quarter per cent. The town's consulting engineers, Associated Engineering Services, Ltd., will be in charge of selecting the proper equipment and supervising installations.
